

Shortlist the exact system

Use inches and pounds, or label another unit clearly. Compare current drawings.

Weekly lifts / station needs / number of users:

Two or three candidate models, exact variant and manual revision:

Each station: stack/plates, ratio, usable resistance and increments:

Clear room width, depth and ceiling; doors / overhead obstructions:

Operating area: bench travel, cable reach, bar and plate-loading access:

Seat, pad, pulley and bar travel: test with every intended user:

Floor / anchoring permission / manufacturer-approved installation:

Largest package, route, stairs and delivery-to-room arrangements:

Resolve uncertain specifications with the seller before comparing final quotes.

Keep this sheet with the current manual, quote and assembly instructions.

Compare the whole purchase

A base frame, complete system and upgraded bundle are different quotes.

Selected quote date / seller / model / included stack or plates:

Missing bench, free bar, plates, safeties, handles and station add-ons:

Delivered equipment + extras + tax + flooring + installation (USD):

Service contact / cable and pulley part numbers / parts availability:

Warranty scope, home-use terms and component exclusions:

Return window, pallet packaging, freight and restocking conditions:

Questions still unanswered / demo or installation appointment:

Decision / reason to skip / simpler alternative / next action:

Do not infer capacity or required clearances from a promotional photograph.

Use the current manufacturer manual and a qualified installer where required.
