

Price the complete purchase

Record exact model, quantity, seller and delivered quote. Do not guess unknown costs.

Exercises / equipment configuration / quote date:

Equipment / bar / plates / bench - USD:

Approved safeties / protection - USD:

Flooring / preparation / measured area - USD:

Storage - USD:

Delivery / access service / fees - USD:

Actual checkout tax amount - USD:

Assembly / mounting labor and hardware - USD:

Room work / assessments / other upfront costs - USD:

Known setup subtotal / unknown rows / separate reserve - USD:

Confirm current manuals, room suitability and the complete delivery route before ordering.

A price list does not approve equipment fit, wall strength or floor capacity.

Compare the running costs

Use fees you would actually stop paying. Keep unused reserve separate from spending.

Home apps / subscriptions per month - USD:

Home maintenance allowance per year - USD:

Would you cancel or retain the membership?

Avoided monthly and annual membership fees - USD:

One-time cancellation charge - USD:

Comparison years / planned workouts per week:

Unquoted costs / omitted upgrades / financing / utilities:

Seller confirmation / warranty / returns / missing parts:

Delivery / room / installation questions still unresolved:

Budget decision / next quote / purchase sequence:

Simple payback: upfront + cancellation cost / positive monthly fee difference.

Spread annual fees over 12 months for a model; actual bills and use can differ.

Planning worksheet, not a quote, structural assessment or individual training prescription.
